## TEA

"Fresh from the Garden"

Now It Could Be Done

Probably it is an direct reaction to the appalling state of irritant unrest which keeps international nerves continually on edge that more is being written and heard now of peace and its perpetuation than was heard or written during the great peace which terminated in the framing of the Treaty of Versailles.

The Anglo-Saxon world, at least, has come to the conclusion that a treaty inspired by revenge and nurtured by fear is altogether too provocative an instrument to produce anything more than a mere armistice or truce. That section of the world now is convinced that the Christian virtues of humility and fraternity could and would provide a better background for an abiding peace featuring the essential conditions of harmony and mutual co-operation.

It is hard to concede that mankind is devoid of capacity to bring about this condition or state. In fact, when one scans the war efforts of the belligerent nations between 1914 and 1918, one is forced to conclude that only the Will is lacking. Were the efforts made then to destroy life and property exerted now, to preserve life and property, world peace, quickly would be achieved. There is no doubt of it.

If doubts be cherished, they would quickly be dispelled by reference to the recently published "War Memoirs" of David Lloyd George. First as Britain's Minister of Munitions then as her premier, Mr. Lloyd George was primarily responsible for organizing the country's human and industrial resources for victory. How far-reaching, how extensive that organization was, is vividly revealed in the pages of his narrative. All essential industries were brought within the compass of his authority. All were made to contribute their full quota to the national effort. That gigantic organization was established for the dual purpose of building up the allied, and of breaking down the enemy, capacity to endure. The achievement above conclusively what can be done by organization on the grand scale.

Considering the efficacy of war-time organization and effort, surely it is not foolhardy to suggest that, were all the major nations of the world to unite in organizing in the cause of peace, lasting and prosperous peace would ensue. And were the same efforts applied to solving the economic problems of the peoples of the world unquestionably they, too, would yield. It is a strange commentary on civilization and human progress that sacrifices to win a war should be described as "heroic" and, as such, borne with determination and a grin, while sacrifices to win a peace should be branded as humiliating and intolerable. It is strange, too, that war could be financed with no insuperable difficulty, while finances required in an economic depression to keep innocent people from starvation, present apparently insurmountable obstacles to the governments concerned.

Nicholas Murray Butler, noted American liberal, recently translated the financial cost of the war into graphic and startling terms. It cost 400 billion dollars. "With that money," he says, "we could have built a \$2,500 house, furnished it with \$1,000 worth of furniture, placed it on five acres of land worth \$100 an acre, and given this home to each and every family in the United States, Canada, Australia, England, Scotland, Wales, Ireland, Fuzhou, Belgium, Germany and Russia. We could have given to each city of 20,000 inhabitants and over in each country a million dollar library and a ten million dollar university. Out of what was left we could have set aside a sum at five per cent. that would provide a \$1,000 yearly salary for 125,000 teachers, and a like salary for another army of 125,000 nurses."

Four hundred billion dollars was expended in a war which took 30,000,000 lives. Surely, a similar amount expended in a peace, would save a similar number from sufferings attendant upon economic depression.

### Recover Sunken Gold

**Five Million Dollars Removed From Hold Of Steamer Lauretic**  
Bullion valued at \$1,000,000 (\$5,000,000), was removed by a private salvage firm from the sunken steamer Lauretic, which went to the bottom with a German torpedo in 1917, the London Mail says.

Admiralty divers salvaged \$5,000,000 between 1918 and 1924 and abandoned the remaining \$1,000,000 because the ship had been smashed and buried in the sand.

Salvage operations on the steamship Lauretic, a 15,000-ton White Star liner which lay in 120 feet of water, are known to be among the most difficult ever attempted.

British navy divers clad in rubber suits made more than 5,000 dives to recover \$5,000,000 worth of bullion.

The Lauretic was sunk off the mouth of Lough Swilly in Northern Ireland, in a position exposed to westerly and northwesterly gales.

### Belongs To England

The origin of the tune "God Save the King," has always been a matter for argument, but most authorities agree on one point, that it is English. It was "adopted" by the Prussians, and with appropriate verses became the Prussian national anthem. So it is quite erroneous to say that it "belonged" to Germany, in the sense that it was borrowed from them.

### Mail By Rocket

**German Invention May Shoot Letters From Dover To Calais**  
A rocket mail service may be established between Dover, England, and Calais, France. The enterprise would employ the "Zucker" aluminum rocket, a German invention which was exhibited at the International Air Post Exposition in London the first part of May.

It is estimated that by means of the rocket service, letters and parcels may be shot across the English Channel, a distance of 21 miles, in one minute.

It is reported locally that the inventor, after demonstrating the practicability of such a service, intends to approach the British and French governments with a view to arranging for a regular rocket mail service, a British syndicate being formed for the purpose. Under the proposed scheme, Calais would be the receiving and dispatching point for the continent.

### Valuable Copper Salvaged

Five hundred tons of copper, valued at over \$80,000, were recovered from the sunken Spectator off Kingsdale, Irish Free State, by the Italian salvage ship Arpone in the first 14 days of operation. The Arpone is believed to be directly over the spot where the Lusitania was sunk by a torpedo during the World War. The Lusitania contains over \$5,000,000 in gold bullion.

### Some Interesting Facts

**Article Deals With African Desert Dust And Elephants**  
News of the World, London, says: "An interesting article by the National Geographic Magazine. It is stated that it is not only in this country that motor-buses are cursed, but that Arab camels are also in protest and abuse of the motor, which, being, choking clouds of dust all over the pilgrims."

"Away, thou son of a dog! By Allah! What an invention of the devil! May your bones break and be burnt to cinders by the sun!"

"But in another few years the poor camels may have still more cause to protest, for the road along which the pilgrims travel will probably be the route of the proposed Jeddah-Mecca railway."

"The same authority says that much of the elephant lore that is widely accepted is fabulous. The elephant has a wonderful memory, but the beast does not often resent a wrong. If elephants avenged every beating there would be a very high mortality among elephant trainers and attendants."

"If the trainer or keeper fears the animal, and does not at once subdue it with force, then that particular elephant will continue to intimidate him, and he may eventually be killed. If, however, he subdues it at once by force, it will then usually submit to his authority ever afterwards."

"It is often said that African elephants cannot be trained, and therefore are seldom seen in circuses or zoos. The African elephant is as easily trained as the Indian."

"The great Jumbo was taught to carry children on his back in the London Zoo, and was a docile and safe elephant. The Belgians at Apt. one of their stations in the Congo, are using trained African elephants to plough fields and to pile and carry logs and lumber."

### Alberta Teachers

**Considerable Versatility Is Demanded By School Boards**

Some Alberta school boards apparently demand considerable versatility of talents in their school teachers. This was revealed at Edmonton as the hearing of appeals for alleged wrongful dismissal of teachers continued before Judge MacDonald, sitting as a board of reference.

A young woman teaching in the Willingdon district claimed she had been dismissed because she could not play the piano.

Another board, through its chairman, stated that the teacher had been dismissed because she was too high strung and was continually banging the pupils on the heads.

### Almost Everything

A youth had just driven home from college, at the close of the term.

"Did you pass everything?" asked his mother anxiously.

"Everything but two motorcycles. They must have had airplane motors in them."

The "lost world" of southern Venezuela is being explored by a scientific expedition.

### Fight Auto Invasion

**French-Canadians Do Not Want Cars On Mount Royal**

The only city in the Dominion which boasts a mountain in its midst is in the midst of a small war about the mountain.

Mount Royal, the rearing landmark from which the metropolis of Canada derives its name, is the bone of contention in an argument as to whether automobiles shall be allowed for the first time in history to scale its summit.

The mountain broke into the headlines when Ald. J. Allan Bray ventured the suggestion motorists be permitted to wind their way upward to its wooded delta and broad expanses of green overlooking the modern city. An immediate storm of protest broke and thousands of citizens voiced their determination to preserve the primitive natural charm of Montreal's namesake for future generations to enjoy.

One of the few fortresses yet remaining against the advance of the automobile age, Mount Royal has continued to share its picturesque quaintness with Montreal's motorless avenues. To date, only pedestrians, bicyclists and the horse-drawn Victorias which are heritages of another age in Montreal, are allowed on the mountain and the French-Canadians, who regard the great rock as part of the rich tradition of their land, declare the honking of the automobile horns will never be allowed to break its spell.

### Have Suffered Most

**Thousands Of German Professors Seek Work In Foreign Countries**

Some 7,500 academic and professional refugees from Nazi Germany are now attempting to create a new existence for themselves in foreign countries, the New York Emergency Committee in Aid of Displaced German Scholars reveals. It is declared that "of all classes affected by the National-Socialist revolution in Germany, the academic and the professionals have suffered the most."

A high commission for refugees coming from Germany is co-ordinating the work in various countries. Sixty German scholars have been placed in American institutions of higher learning. More than 1,300 German scholars have been displaced, of whom 600 to 700 have or will shortly emigrate. Between 5,200 to 5,500 professional people have left Germany and 1,500 to 1,600 of the 7,000 German university students sought to quit their studies have sought refuge outside Germany.

British farmers registered as farm cheese-makers with the milk marketing board of Great Britain last month numbered 1,284, owning 44,000 cows with an estimated output of milk of 22,000,000 gallons per annum.

The total length of the Amazon river from the head waters of the Ucayali is about 3,300 miles.

The Alaskan coast, on Diachenant, ment Bay, rose 47 feet during the 1899 earthquake.

### WHEN THE DAVIS CUP STAYED IN ENGLAND

Princess Helena Victoria shaking hands with Fred Perry, Britain's No. 1 player, whose victorious match with Frank Shields of the United States decided the issue of the Davis Cup Challenge Round. Perry won both his singles matches as did "Bunny" Austin, England's second ranking star. Mr. Roper Barrett, the non-playing captain of the British team, is seen holding the Cup.

only 5¢

Fit the pocket neatly... and keeps the last paper just as fresh as the first.

### Gigantic Cunard White Star Liner

**Some Startling Facts About The New Queen Of The Seas**

The name of the new Cunard White Star liner, now known as No. 534 will be divulged 24 hours before the hull slips down the ways at Clydebank, Scotland. Queen Mary, named by King George V, will launch the new steamer. The ship will be at least 1,018 feet long and register 73,000 or more gross tons. She will cross the Atlantic from England and France in four days. The cost of the superliner has been estimated at \$30,000,000. The vessel will have 11 decks, one the first class promenade being 750 feet long, just 45 feet less than the entire length of the Mauretania. She will be five times the length of the original Cunarder, the Britannic. The height to the mainmast will be 250 feet. The auditorium will weigh 163 tons. The quadrilateral is but half this weight. The steel plates range from 8 feet in length to 30 feet, and weigh from 200 to 4,000 pounds.

There will be 2,000 portholes and windows, the panes of glass ranging from 12 inches square to large oval panes two feet in height. The anchor cables, wire hawsers and ropes for the ship will be more than four miles in length. The anchors, of special design, will be the world's largest. There will be 60,000 cubic feet of refrigerating space. The automatic steering gear will be the largest on any ship. The ship will be driven by single-reduction geared turbines supplied with steam from high-pressure water-tube boilers. There will be four screw propellers, each driven by an independent set of machinery. The driving machinery will be placed in two separate engine rooms. Four turbo-generators will supply power to the auxiliary machinery. Three others will supply light and power for the hotel services in the ship. Oil fuel will be used. The propellers will each weigh 35 tons and measure 20 feet in diameter. There will be 257,000 turbine blades, varying in length from two to 18 1/2 inches. The thousands of blades part of an inch. The Clyde River has been widened and deepened for the launching of a cost of \$400,000. The new superliner is being built in the yards of John Brown & Co. Ltd., where the Aquitania was built.

The ship will have three funnels. The first funnel will be more than 70 feet in height, the other two lower. This arrangement will keep the decks and ventilators clear of funnel gases. The hull of the first Cunarder, the Britannic, could be passed through any one of the funnels of the new superliner. The ship will contain 50 miles of plumbing pipes. The electric lighting system is sufficient to service a city of more than 150,000 inhabitants, such as Quebec, Hamilton or Ottawa. The ship's decorations will be 27 enormous boilers. The number of tubes in the main and auxiliary condensers will approximate 60,000. The electrical wires used would reach from Halifax to Vancouver and then 400 miles out into the Pacific ocean. The ship's stacks will be thirty feet in diameter, exceeding the Holland Tube, between New York and Jersey City, by six inches. From the keel to the top of the foremost funnel is equal to the height of an 18-story building. The engines of the ship will generate 200,000 horsepower—enough to tow Staten Island across the Atlantic. The make up of the ship will require 35,000 tons of steel. The catering department will contain 200,000 pieces of crockery. Ten miles of carpets will be used in covering the ship's floors. Tableware, including knives, forks, spoons, etc., will total 100,000. The ship's decorations will cost \$2,500,000. Her steadiness will be assured by a million-dollar gyroscopic device weighing 300 tons. This device will keep the ship steady in the roughest sea. The captain's bridge will be 100 feet above the water line. The steamer's ventilators will be large enough to swallow a subway car. The sun deck will contain 100 lounges, palm courts and swimming pools, giving a tropical aspect to the surroundings during the seasons. The steamer will be insured for approximately 7,000,000.

In her 53 flights across the Atlantic, the Graf Zeppelin has never been more than an hour behind her schedule and in many cases she has been several hours ahead.

Tests have shown that actors or speakers in a hall should speak louder in cold weather, because the heavy clothing of the audience absorbs more sound.

An aviator's hand gauge for measuring wind velocity, small enough to be slipped into a pocket is being used by Russian airmen.

### Commemorate Early Flight

**Aeroplanes Kept In Air From Dawn To Dusk At Edmonton**

The twenty-fifth anniversary of flying in Canada was effectively commemorated at Edmonton recently when some 15 members of the Edmonton and Northern Alberta Aero Club kept an aeroplane aloft for 15 hours, 15 minutes in "a dawn-to-dusk" flight.

In common with other flying clubs across the Dominion, the flight was carried out, each machine staying in the air for shifts of one hour, to be replaced by another before the first had touched the ground.

Pilot C. North Sails, hopping off at 5:00 a.m., was the first to commence the flight, while Pilot Sven Jensen was the last to land when he brought his machine down at 6:35 p.m. after a black rain cloud and thunder made the sky too black to continue.

Miss Margaret Fane was the only woman pilot to take part in the commemoration of the flight made by "Casey" Baldwin, who hopped off in his crudely-made "Silver Hawk" 25 years ago, August 16, in Nova Scotia.

### London's Newest Building

**Has Hotel Service And Every Accommodation For Tourists**

"Flatlet" is the newly coined word to describe a \$10,000,000 block of flats which is being completed in London. The name is intended to describe flatlets having hotel service. There will be 50 flats, accommodating 1,200 people. As far as possible every daily want of the tenants—food, clothing or service—will be available within the building. A shopping expedition of the flat-dwellers will be merely a trip to the ground floor and there will be restaurants, dining rooms, barber shops and beauty parlors. A novel feature will be a terrace, 16 feet wide, surrounding the top floor of the building. It resembles a linen promenade deck and will be available for sun-bathing and exercise.

### Wanted His Razor

**Portland Man Would Shave With Blade That Almost Killed Wife**

You can choose your own title for this one. Here's the story.

A little man entered the police station at Portland, Oregon, and asked for the razor which his wife used to slash her throat in an unsuccessful suicide attempt a few days ago.

"What do you want with the razor?" a police sergeant asked. "I want to shave!" was the cool reply. It was suggested that he buy a new razor.

Mother—Here is a nice book from which I shall read to you.

Little Girl—What did you bring me that book to be read out of for?

### CAN'T SLIP OR SLIDE

### FALSE TEETH

Don't use any old kind of remedy to loose teeth. Use the only one recognized one which dentists prescribe such as Dr. Wernert's Powder—the largest seller in the world—gives teeth so secure yet comfortable they feel natural. Positively no slipping or clicking—blissful comfort assured all day long. Forms a special comfort cushion to protect and soothe gums. No colored, gummy paste—keeps mouth sanitary—breath pleasant. Inexpensive—all druggists.

### The Handiest thing in the Kitchen

### HANDI-ROLL

For covering shelves. Lining drawers, etc. 36 foot white or coloured rolls. All dealers or write—

Appleford, PAPER PRODUCTS

HAMMINGTON, ONTARIO

### Looseness Of the Bowels During the Summer Months

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels. Generally it develops into Diarrhoea, Dysentery or Summer Complaint, and has a tendency to weaken the system.

Do not check the discharges too suddenly. Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used by thousands of families during the past 88 years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Put up only by The F. Millars Co., Ltd., Toronto, Ont.

## EXPORT OF HAY AND STRAW IS UNDER LICENSE

Ottawa.—Confronted with a serious shortage of fodder crops in sections of Canada, the government has utilized powers conferred by the new Marketing Act to license the export of hay and straw. An order-in-council passed under the act, required exporters of either hay or straw to obtain licenses for shipments abroad. It also makes transportation companies see that shipments outside Canada are covered by such licenses.

A statement issued from the prime minister's office explained that drought and heat had so affected the Canadian hay and clover crops in sections of Canada that an acute lack of suitable cattle feed was being felt. Both Canada and the United States had found it necessary to take steps to conserve cattle feed. Where surplus areas in Canada were adjacent to deficit areas in the United States, and vice versa, it was intimated, arrangements would be reached for moving feed across the line.

A license will be required for each export shipment, and it may be revoked by the governor-in-council if the licensee fails to comply with any of the terms or conditions stipulated.

"The prolonged drought and heat that have afflicted large areas in Canada and the United States have compelled the two governments to take immediate action to relieve the acute lack of suitable cattle feed that is now apparent and to prevent speculators from exploiting the consumers and producers of fodder crops," the statement says. "The Canadian hay and clover crop, which in the four years 1928-30 averaged over 16,000,000 tons, had fallen to 11,433,000 in 1933; and, for the current year, it is estimated at 9,884,000 tons. This decline in production is, of course, unequally distributed across the country, being most pronounced in Saskatchewan and southern Alberta.

"It is the policy of the government to see that such local surpluses of fodder crops as exist in certain sections of Canada, should be made available in the first instance for the relief of conditions in the deficit areas. The action that has been taken under the Marketing Act is designed to facilitate this policy by regulating, under license, exports of these essential feed stuffs."

## Atlantic Air Service

Talk Of Plans To Hook Up Canada With Croydon

London.—The Daily Herald, Labor newspaper, hints that the visit of Clark Howell, chairman of the federal aviation commission of the United States, to London, was the latest step of establishing a North Atlantic service.

"Possibility that a North Atlantic service run jointly by Imperial Airways and Pan-American Airways is brought nearer by the arrival in London of Clark Howell," the paper wrote.

"Planes would land in Canada and service would then continue right through the United States," it explained, adding that Croydon would be the English terminal.

## Increase French Fleet

More Ships To Protect Coast Of France From North Sea Attacks

Cherbourg, France.—Reinforcement of the French fleet in the English channel to plug up weaknesses brought to light by naval manoeuvres last May is in progress under orders of Francois Pietri, minister of the navy.

Two battleships, the Provence and the Bretagne, which are being modernized at shipyards in Brest, will be kept at that port. They will be added to the fleet known as the second squadron, the duty of which is to protect the coast of France from attack from the North Sea.

## Alert Police Force

Winnipeg.—"The best prevention against the kidnapper is an alert police force with a good record for detection of crime," said Sidney E. Smith, president of the University of Manitoba and nationally known legal authority, discussing methods of combatting kidnapping.

## Completing Highway

Calgary.—Alberta will spend \$300,000 to complete the trans-Canada highway between Banff, Alta., and the Saskatchewan border giving work to many of the unemployed men now on relief in cities and towns of the province.

## Fair Wage Act

R.C. Boys Dismissed When Minimum Wage Law Becomes Effective

Victoria.—Many British Columbia youths aged 16 and 17 and with several years' experience in their work, have received only \$5 or \$6 per week but have now been discharged by their employers because of the province's new mercantile minimum wage of \$12.75 per week for such labor. Hon. George S. Pearson, minister of labor, reported.

The minister publicly requested all youths so discharged to communicate with him and he said he had received reports from more than 80. In turn, he has written to the firms involved and has asked them to reconsider the dismissals, stating that they are big enough to take part in reconstruction of the wage system in the mercantile industry without hurting themselves.

"This is a thing which needs co-operative effort," he said. "We have no desire to prevent any firm from doing business and we want to feel that everybody is working together to raise the wage standard back to a level permitting decent living conditions."

Twenty per cent. of the 60 youths who submitted their cases were with one firm, the minister said.

## Want Regulations Altered

Cattle Shippers Cannot Afford Stop-over On Bay Route

Prince Albert.—Immediate alteration in regulations that at present interrupt the direct shipment of cattle to Churchill was urged here by leading livestock producers of Saskatchewan and Alberta.

W. E. Cuth, manager of the Saskatchewan Livestock Pool, and Jack Byers, manager of Western Stock Growers, Calgary, were emphatic in declaring Churchill would suffer unless arrangements which force a stop-over at Hudson Bay Junction for feeding are changed.

"Shippers cannot afford to stop over on an run of only 160 miles," Mr. Cuth stated. Direct runs of 40 hours are not uncommon in the overland journey from Calgary to Montreal, he said, and travelling time to the northern port was only 38 hours, including a stop of more than an hour at Melfort.

They were enthusiastic over the possibilities of the port should regulations be changed, and declared treatment at the hands of officials was also of the best.

## Regulate Hay Exports

Shortage Of Hay And Straw In West May Make This Necessary

Ottawa.—Because of the shortage of hay and straw in many parts of Canada, particularly the West, the government will take steps to regulate exports by license, it was learned here unofficially.

The situation in the prairie provinces, and in the Maritimes to a lesser extent, is pressing, according to representations to the government. Regulation of these exports by licensing would be to protect the farmers from speculators.

Burnt-out areas in the United States are badly in need of hay and that country contemplates taking of the \$5 a ton duty for the entry of Canadian hay.

## Canada And Naval Defence

Should Defend Pacific Coast With Own Navy

Montreal.—"Canada should defend the Pacific coast with her own navy and let the British navy police the Atlantic," according to the suggestion of Sir Reginald York-Tyrrwhit, admiral of the British fleet, who sailed aboard the liner Montcalm.

"Perhaps we cannot expect you to protect both coasts," said the admiral, "but you might protect one with your own navy. You could leave the Atlantic coast for us to look after, while perhaps you could look after the Pacific yourselves."

## Precious Metal Salvaged

Silver From Sunk Ship Taken To England

London.—Carrying gold and silver bars worth nearly \$1,000,000, the Italian salvage vessel Artiglio tied up in Plymouth.

The precious metal is part of the cargo of the steamer Egypt, sunk off Ushant 14 years ago while carrying \$5,000,000 in bullion. Four millions were recovered during the past two years, but this year the work was much more difficult, as the vessel had settled deep into the ocean bed.

The cargo brought in by the Artiglio was obtained after two months of hard work.

## Road To Jasper

Work On Edmonton To Jasper Highway To Be Started Soon

Edmonton.—Completion of graveling the Edmonton-Jasper highway by the provincial government will start at an early date and operations will commence on the stretches of the road immediately east of Jasper national park boundary and west of Edmonton. Hon. J. J. MacLellan, minister of public works, reported on his return from an inspection trip over the highway. When completed this will give an all-weather road between Edmonton and Jasper. Work is being undertaken following an announcement of a federal loan of \$125,000 for the purpose.

## Returned For Revision

Plans For Proposed Bridge At Vancouver Sent Back

Ottawa.—Plans for the proposed first narrow bridge at the entrance of Vancouver harbor have been sent back to the designers with a request the location of certain piers be changed so as to provide for a larger main span. This action was taken after a sub-committee of the cabinet listened to views of opposing interest in the matter of the width and height of the main span of the proposed bridge.

## RELIEF COSTS ARE SAID TO BE ON THE DECLINE

Montreal.—The number of people in Canada receiving direct relief at the end of July showed a considerable decline, the total being 990,098, says the Gazette in a special despatch from its Ottawa correspondent.

The despatch continues: This total was divided amongst the nine provinces as follows: Ontario, 300,000; Quebec, 285,000; Saskatchewan, 180,260; British Columbia, 88,100; Manitoba, 56,800; Alberta, 47,350; Nova Scotia, 23,100; New Brunswick, 9,100; Prince Edward Island, 388.

Important decreases in the number on relief were shown by the provinces of British Columbia, Alberta, and Manitoba, while Saskatchewan, due to the desperate conditions created by the prolonged drought, showed an increase. The decline in British Columbia is attributable largely to the industrial recovery enjoyed there, both mining and lumbering showing notable advances. A slight improvement in general conditions and the absorption of many men by harvesting operations explains the drop in the number of relief recipients in Alberta and Manitoba.

In May, 1932, the total number receiving direct relief aid in British Columbia was 64,282. In March, 1933, it reached the peak figure of 109,940, or nearly 16 per cent. of the total population. Six months later it dropped back to 58,885, but it jumped up to 105,690 in April of the present year. By the end of July it had fallen again to 88,100.

Saskatchewan's figure in May, 1932, was 156,738, but for some reason it fell to 40,000 in September of that year, and then jumped to 143,000 in March, 1933. Then came another drop to 40,000 in August of that year. The peak for that province was reached in February this year, the total then being 216,038, or 25 per cent. of the population.

## CANADIAN WINS MARATHON FROM EMPIRE'S BEST

H. Webster, of Hamilton, Ont., winner of the Men's Marathon at the British Empire games, entering the Stadium at the White City, London, for the last spur of the long drive. D. McN. Robertson of Scotland finished second.

## KIDNAPPERS INVADE CANADA

John S. Labatt, president of the Labatt Brewing Company of London, Ont., who was "snatched" by kidnappers between Sarala and London and was held for \$150,000 ransom.

## Work For The Empire

Co-operation Would Lead The World To Peace And Stability

Vancouver.—A British commonwealth, solving its own problems through cooperation and leading the world to peace and economic stability, was pictured at Vancouver Canadian Club luncheon in an address by Baron Thomas James Chesney-Tomlin, member of the privy council.

"It is too much to hope that this spirit of helpfulness and co-operation will spring up in the empire and flourish as a flower in a field of stubble," he asked. "Through it we may attain the highest measure of common good and teach the world our problem. Let us make our future as glorious as our past."

Lord Tomlin thought the world was suffering from chronic indigestion from over-production and too hasty consumption of new inventions. He reminded his audience he knew something about inventions for he had been chairman of the royal commission on awards to inventors.

Lord Tomlin paid a tribute to the United Empire Loyalists and expressed the hope that their spirit of co-operation would live in Canada to assist the Dominion in working out its problems.

## U.S. Builds New Ships

Twenty-Four Fighting Ships Are On The Program

Washington.—The United States navy department have let contracts for the construction of 24 fighting vessels. Eleven of the ships will be built by private shipbuilding firms and 13 by navy yards. Estimated cost of the ships was not made public.

The ships contracted for will include two 10,000-ton six-inch gun cruisers, two 1,850-ton destroyer leaders, four 1,500-ton destroyers and three submarines of around 1,300 tons each to be constructed by private ship builders. Navy yards will build two 10,000-ton cruisers, one with eight and the other with six inch guns. These yards also will construct four undersize craft and seven light destroyers.

## Huge Indian Dam Opened

Madras, India.—The gigantic Melur dam, which is to fertilize 1,000,000 acres of land, was opened by Governor Sir George Stanley. With a cubic content of 54,000,000 feet the dam embodies the largest single block of masonry in the world, and also contains a "waterfall" of 95 feet over a width of 630 feet.

## Ransom Payment Illegal

Claimed It Is Contrary To Law To Pay Kidnap Ransom Money

Toronto.—Payment of kidnap ransom or blackmail demands is illegal in Canada, Attorney-General Arthur W. Roebuck said here. Though the criminal code does not cover payment of ransom specifically, a clause making it an indictable offence to "willfully obstruct, pervert or defeat the course of justice" may apply, he said.

Stating that in the absence of alteration by Canadian legislation the English common law applies in Canada, the attorney-general quoted two English legal authorities to show the payment of moneys in such a case is regarded in England as "aiding and abetting" a crime.

"So long as the people of Canada are prepared to pay blackmail we are not likely to get rid of the racket," he added.

## Years Of Isolation

Russian Colonists Were Ice-Bound For Five Years

Moscow.—Forty-four Russian colonists, ice-bound for five years on lonely Wrangel island in northern Siberian waters, were reached by a group of Soviet scientists on the ice-breaker Krasin, according to word reaching here.

Their lonely years of isolation were supposed to have ended last year, when the Chelmskin sailed for Wrangel island. But that expedition sank while its 102 passengers were rescued by aeroplane after months on an ice floe north of the Behring Straits.

Wireless messages reaching here described the uncontrolled enthusiasm with which the colonists greeted the relief party.

## Post Office Efficiency

Letter With Only Street Name Delivered Safely

Calgary.—"Third Avenue, West, Canada," was the address placed on a letter mailed in London, England, some time ago. It has reached its proper destination. The envelope also bore the name of the addressee.

It landed from the Old Country at Montreal where postal officials were puzzled but marked "try Verdin." Verdin, Lachine and Ville St. Pierre successfully reported the letter was not for them so it was sent on to Ottawa.

A postal official at Ottawa knew of the numerical system of street naming in Calgary and so the misadventure was sent here where the name and address "clicked."

## MAY PUT BAN ON PUBLICATION OF WHEAT REPORT

London.—Chances of publication of the 1,500-word document dealing with the world wheat problem, which will be submitted to the 21 interested governments, appeared slim on the eve of the final session of the international wheat conference.

While a high authority said the conference will be urged to publish the document, an overwhelming opposition to the proposal was uncovered by a canvass of the various delegations.

Argentine and Russian delegates strongly favor revealing the contents of the closely guarded document, but Canada, United States and Australian delegations are opposed, and most of the Europeans present favor the latter group.

Knowledge that influential interests in England, the United States and other countries, which bitterly oppose further government control, would bring strong pressure to bear if the present proposals were published was given as the chief reason for secrecy. Conference sessions have been behind closed doors.

The document which will go to the governments, it was learned, however, contains proposals for a flexible quarterly export quota system as well as for continuation of the annual quota method used during the crop year ended July 31, 1934.

The quotas would be allotted from an estimated world demand of 600,000,000 bushels, but upward of 600,000,000 bushels would be held "in reserve" for distribution during the year if changed conditions warrant such action.

It was understood, too, the document contains proposals for continued reduction in acreage and for extension of the term of wheat pact beyond its expiration date, Aug. 1, 1935.

## WILL CONSIDER FIVE CHANGES IN WHEAT PACT

London.—Five important amendments to the London wheat agreement of 1933 will be considered by the world wheat advisory commission when it meets again in Budapest, Hungary, on November 20.

The conference adjourned its London meeting until that date, having failed for the time being at least in its two main objectives—settling new international export quotas for the current crop year, and getting agreement on further acreage reduction.

The proposed amendments, which in the interval will be submitted to the 21 countries signatory to the wheat pact for their consideration, make radical changes in the export quota system which ruled during the last crop year, ending July 31.

The amendments embody three changes:

(1) Proposed extension of the world wheat agreement from July 31, 1935, to July 31, 1937.

(2) Provision for continuance of efforts to adjust wheat production to demand, and to adjust distribution of surplus stocks.

(3) Establish principles on which the quotas for principal exporters are to be adjusted from time to time.

(4) Subdivision of the crop year quotas into quarterly periods.

(5) Creation of a system of quota reserves designed to meet contingencies, such as a bumper crop in any one nation.

In view of the proposed changes in the agreement, the world conference concluded its August sessions without any attempt to fix quotas for the present crop year.

The estimated world import demand for wheat in 1934-35, shown by the Budapest meeting to be 1,000,000,000 bushels, according to the conference, but how this is to be allocated among the exporting countries remains for the Budapest meeting to decide.

The world conference goes to Budapest at the invitation of the royal Hungarian government. Hungary is one of the principal nations in the Danubian exporting block.

Representatives of the big four exporters—Canada, Australia, the United States and the Argentine—are expected to confer among themselves before November in an effort to decide export quota allotments.

Thereafter quotas for lesser exporters, such as Russia and the Danubian countries, would be fixed.

## Selling Wheat Holdings

Statistics Show Amount Held In Storage Is Dropping

Ottawa.—Canada is selling its big wheat holdings at a rapid rate. The Dominion bureau of statistics, in the week ending August 17, internal wheat holdings dropped from 187,231,597 bushels to 185,123,667, a reduction of 2,107,930. At the same time Canadian wheat in American elevators amounted to 10,386,124 bushels, compared to 5,262,942 last year.

United States wheat in Canada was placed at the negligible figure of two bushels, compared with 3,700,660 bushels last year.

In total, wheat on the lakes amounted to 3,691,531 bushels, compared with 4,098,415 bushels for the previous week and 3,239,639 bushels for the corresponding week in 1933.

## Fisher Boy Contest

Western Youths Win \$5,000 Scholarships

Chicago.—Two of the six major scholarships awards for competitions held by the Fisher Body Craftsmen's Guild went to Canadian youths, it was announced at the international convention of the guild.

The major awards are valued at \$5,000 and the Canadian boys winning were J. Ross Farquharson, 20, of Vancouver (1509 Trafalgar street), and Harold Rasmussen, 15, of Regina (2251 Winnipeg street).

Six other scholarships awarded for miniature coaches of superb workmanship to Canadian youths were Lawrence Drbert, Edmonton, \$1,000, senior, and Vernon M. Pariah, Medicine Hat, Alta., \$500, senior.

## Will Pay War Debt

Cape Town, South Africa.—The Union of South Africa has agreed to settle the balance of its war debt to Great Britain, amounting to \$400,000, at the end of August. Negotiations have been proceeding for some weeks and arrangements are now being made with the British treasury to redeem the loan.

#### BINDER TWINE AND CREDIT—

For better or worse the Canadian West was built up on credit.

Certainly during the past thirty years credit has played a major part in the development of the country, so much that when one had become imbued with the western spirit the obtaining of credit was considered a common place matter by most people. The invasion of the west by the banks, almost invariably branches of eastern Canadian concerns, each competing against each other for business, brought about a liberality of credit which perhaps has been unequalled anywhere. As the years passed the bankers' enthusiasm as regards handing out loans waned somewhat and they became more discriminating, but never at any time did they fail in the science of mathematics. From the beginning to the present time the making of loans is pure business, transacted between two parties for profit, assured to one and hoped for by the other. The making of loans is a profitable business providing everything turns out as planned but frequently things do not turn out as planned and despite a system efficient to the nth degree bankers have frequently found themselves in the position of having to take a loss and write off loans upon which they originally intended to make a profit. No doubt experiences of this kind caused them to become more and more careful until today the old-time liberality has entirely vanished and the obtaining of a bank loan is as dry as dust, hard as steel transaction. Not that bankers are not still anxious to make loans—they are—but only loans that are proof against all the vagaries and vicissitudes of time and human nature. In other words bankers have simply become more cautious and bankers who are not cautious do not last long as bankers. The history of the Canadian West, however, has set up in the mind of the average farmer the belief that the banks have obligations to the people even as the people have obligations to the banks; that nearly half a century of business dealings has created a sort of bond of unity which in the case of emergency would cause the banks to stretch their system a little, and cause the beneficiaries thereof to sacrifice, if necessary, to fulfil the letter of their agreement.

Such a situation seems to have occurred in the Peace River Country, where, so press reports say, there is danger of wheat going unharvested because of the settlers' inability to obtain credit wherewith to buy binder twine. The government has refused to guarantee credit for binder twine and the banks for reasons of their own are unwilling to lend. To have any quantity of wheat go unharvested due to inability to obtain twine with which to tie the bundles is a deplorable condition of affairs. Quite recently in a widely circulated American magazine there was an article accompanied by photographs regarding the drought stricken country. One of the illustrations showed an entire family on their knees outside their home praying for rain. Imagine, if you can, with what consternation and amazement they would greet the news that had Providence sent them rain and their fields ripened unto harvest, the wheat would go unharvested for the want of twine with which to tie the bundles. Could they believe it? Could they understand it? We doubt it.

Time and tide wait for no man and with harvest time upon them prompt action by somebody, bankers or government, or a combination of both, is essential if a grave blunder is to be avoided.

—Tosfield Mercury.

## Council Meeting M. D. of Vale

A regular meeting of the Council of the Municipal District of Vale, No. 262, held in the Municipal Office on Saturday, August 18th, 1934, commencing at 1:30 p.m. All Councilors being in attendance, with Reeve Wahlstrom presiding.

Moved by Treffry—That minutes of the last regular meeting, held on July 21st, 1934, be adopted as read—C.U.

Mr. O. J. Gould, representative of the Municipal District of Vale, on the Board of Wainwright Municipal Hospital District, was in attendance and addressed the Council on several matters pertaining to the interests of both districts.

Moved by Wahlstrom—That the District draft a resolution, to be submitted to The Alberta Association of Municipal Districts, asking for an amendment to the Hospital Districts Act, whereby fees now being paid on a percentage basis, to representatives from their respective districts to a hospital board, be deleted, and that remuneration be made in full out of the general funds of the hospital district—C.U.

Moved by Valloeu—That a resolution, similar to the one presented by the delegates of this District, at the A.A.M.D. during the 1933 Convention, re hospital assessments, be again presented at the convention to be held in the current year—C.U.

Moved by Smith—That this Council recommend that Hospital Representative, irrespective of what municipal district they represent, receive payment for all meetings attended during this current year—C.U.

Moved by Smith—That applications for Old Age Pensions, on behalf of Marit Hamns and Carl F. Taylor, be recommended in part by this Council—C.U.

Moved by Castle—That a 1 applicant submitted at the time, relative to securing privilege of the 19-34 Tax Consolidation Act, be approved—C.U.

Moved by Valloeu—That the following corrections be ordered re: 1st—Dept. of Municipal Affairs re liability of District in connection with bonding fees of entire alms; 1934 Hospital regarding Chas Ferguson account; Re: 1st Dept. re W. R. Young—C.U.

Moved by Castle—That monthly statement, at this time submitted by Secretary, be received and filed—C.U.

Moved by Smith—That payment be authorized by Council for the following Labor Pay Sheets—

PIS No. 14—Div. 4—\$138.00; PIS No. 15—Div. 4—\$35.75; PIS No. 16—Div. 3—\$240.00; PIS No. 17—Div. 3—\$294.00; PIS No. 18—Div. 3—\$212.00; PIS No. 19—Div. 3—\$148.50; PIS No. 20—Div. 3—\$154.00; PIS No. 21—Div. 1—\$164.00; PIS No. 22—Div. 1—\$126.00; PIS 23—Div. 1—\$162.00; PIS No. 24—Div. 1—\$202.00; PIS No. 25—Div. 1—\$179.50; PIS No. 26—Div. 2—\$95.50—C.U.

Notice to amend By-Law No. 33, of this Municipal District having been given at the last regular meeting of Council, the following is certified a true copy of By-Law No. 46, of this Municipal District.

"Under the authority of The Domestic Animals Act, the Council of the Municipal District of Vale, No. 392, enacts as follows; That By-Law, No. 33, being a By-Law amending By-Law No. 30, of the Municipal District of Vale, No. 392, be further amended, in the last paragraph of same, by adding the words "of beef type" after the words "Registered bulls."

Moved by Valloeu—That this By-Law receive its first reading—C.U.

Moved by Smith—That this By-Law receive the second reading—C.U.

Moved by Castle—That this By-Law be read for the third time and submitted to the Department for the approval of the Minister—C.U.

Moved by Wahlstrom—That the next regular meeting of this Council be held in the Municipal Office, on Saturday, September 15th, at the hour of 8:00 p.m.—C.U.

Moved by Valloeu—That accounts aggregating the sum of \$374.37, be ordered paid—C.U.

Moved by Castle—That we do now adjourn—C.U.

Div. 2 \$25.50 \$49.80. Provincial Treasurer Mothers Allowance June \$47.00—Carried.

Moved by Mr. Burton—That the Secretary write to Mr. G. Leduc regarding Sanatorium charges that the account is still being presented to this council for payment asking him to advise what his intentions are re payment of same—Carried.

Moved by Mr. Blakley—That Council adjourn to September 18th, 1934—Carried.

## A New Foothold and a New Song

Rev. T. Edgar Armstrong, B.A., B.D.

Text, Psalm 40:2-3.  
He brought me up also out of an  
horrible pit, out of the miry clay,  
and set my feet upon a rock,  
and established my goings. And he hath  
put a new song in my mouth, even  
praise unto our God.

I have drawn your attention to the  
fact that the book of Psalms is a  
great book of moods. This psalm  
presents the Psalmist in a predicament.  
His habitation was a horrible  
pit, miry with clay.

With too many of us sin has a  
respectability. Some of the ill-gotten  
gains of sin give good clothes  
and palatial dwellings. We have failed  
to distinguish between the material  
and the moral results of sin. The  
physical results may be pain and distress.  
The moral results are a  
paralysis of the will, lessened aspirations  
and a numbed conscience.  
These results can only be stated in  
terms of physical analogy. The  
soul has no speech of its own. It  
has longings, aspirations, restlessness.  
As Augustine said "Lord thou  
has made us for thyself & our souls  
are restless till they rest in Thee,"  
but we must express them in terms  
of the physical. "As the hart panted  
for the water brooks so longeth  
my soul for thee, O God." The  
analogy that law applies whether it  
is the heights or depth we wish  
to reach.

In his effort to describe his condition,  
the poverty of soul that was  
his, he speaks of it in the physical  
analogy of an horrible pit, miry, beset-  
tering.  
Some of you may have had ex-  
perience with clay, or western gumbo  
and appreciate his position. "You  
know its besmearing qualities and  
the difficulty to extricate yourself.  
Even if we get out of it we generally  
carry with us marks of having  
been in it."

Pardon a personal reference. I was  
brought up in a district of sparkling  
lakes and creeks on the southern  
slopes of the Laurentian Hills. I  
remember "first" meeting the word  
"slough" in reading "Pilgrim's Progress."  
I had not the mental imagery  
to appreciate it. A few months  
residence in the west gave me a clue  
as to its meaning for the waters of  
our slough drift much from East-  
ern lakes.

So we need our sensibilities a-  
roused to sin that we perceive its  
besmearing and defiling character.  
One hesitates to lend it dignity,  
even for the purpose of discussion.  
Let it be borrowed robes might be taken  
for its own.

Men must become conscious of the  
defiling effects of sin. If not, it will  
go on and no relief will be sought.  
No person in the pit can lift him-  
self out. He wallows about and be-  
comes more besetted and sinks  
deeper and deeper. He who throws  
down a rescue line must be on solid  
footing. Let us understand that this  
is a man's own description of his  
own condition. It was not the pro-  
duct of a preacher's pen but describes  
the facts of sin as the  
Psalmist found them.

But thanks be to God it does end  
there. The Lord lifted him from  
his sad plight and set his feet upon  
a rock. What a contrast! In the  
mind his position shifted. He has  
no sure footing but upon the rock  
his solid foundation. He got a new  
foothold, a new grip upon life. Fur-  
ther he got a new song in his heart  
even praises unto God.

"On Christ the solid rock I stand  
all other ground is sinking sand."

Many are unwilling to occupy a  
plan with the Psalmist but they  
need what he received—a new foothold,  
their goings established and a  
new song.

What are some of the causes  
which necessitate a new foothold?  
Of course the first is willful wrong  
doing. Jesus said "Ye will not come  
unto me that ye might have life."  
Sin defiles what  
ever it touches. Lives defiled by  
sin need the redemptive touch of  
God. Further I find many a life in  
need of a new foothold. People have  
lived under illusions and the hap-  
penings of recent years disillusioned  
them. Longed for in "The  
Psalm of Life," said "Life is earnest  
Life is real and the grave is not  
its goal." If our foundation have  
shifted what have we upon which  
to stand.

Again the realities of life are  
mostly bigger than our infant  
dreams of them. I like to think of  
Teanyou's Lord of Berlegh in this  
connection. It portrays the ex-  
perience of a young lady who married  
a prince, incongruity. She thought he

was only a village landscape painter.  
He led her to his "palace" and said  
"All of this is mine and thine." The  
realities of life were larger than her  
infant dreams and she died prema-  
turely.

The bustling world and the rapid  
march of events staggers us. We  
cannot interpret all observed pheno-  
mena and we are under the necessity  
of formulating a new hypothesis.  
This has happened in our conception  
of the solar system and it is hap-  
pening in the world's affairs about  
us. Here we are in a world of  
plenty and appalling need. A situa-  
tion that to many seems incredible.  
Yet it is here, who ever dreamed of  
seeing such?

The great war came as a gigantic  
social upheaval. We thought it  
to be the last, but unless reason pre-  
vails and the Grace of God grips  
men's hearts we shall witness an-  
other even more destructive.

Men asked in those days where is  
now thy God? And I believe that  
many people never regained footing  
since the war. We might ask as  
Jeremiah "If ye run with the foot-  
men and they weary you, how shall  
we come with the horsemen?"

Some people have thought that the  
redemption of men and society is to  
be easily accomplished by the Second  
Coming of Christ. When He comes  
He will straighten out the tangled  
affairs about us. This doctrine raises  
a host of questions in one's mind.  
If he has ultimately to do this thing  
why does He delay? For to attribute  
the continuance of sin and suffering  
and disease to a loving God is to do  
violence against Deity. He is not  
that kind of a God. Let us recog-  
nize that man is God's collaborator  
and that the fulfillment of God's will  
is delayed by man's lack of co-opera-  
tion.

Jesus said to His disciples. Go,  
we and make disciples of all nations  
and lo, I am with you always.

To date God has not superseded  
His will upon human hearts. I  
society and it is unthinkable. If we  
think that God is going to change  
His tactics. Do we not need a new  
foundation upon which to build a  
Christian theology?

Further adversity has a disconcert-  
ing influence upon human people.  
The Persians had two chief deities.  
To the one, the attributed good; to  
the other evil. When good attended  
them the good god was in control,  
but when adversity came it signified  
that the evil god was supreme for  
the time. How to reconcile a test  
city and success as animating from  
one God is a problem in many minds  
today. Men founder around in their  
attempts to interpret and need a new  
foothold, a new appreciation of values.  
I recently heard the story of an  
aviator. He was making a test  
flight. To his amazement he heard  
something knocking in the machine.  
What could it be? Had a rat gotten  
in? Should it cut a chord his ma-  
chine might be crippled and sudden  
death be his. Instantly he sought  
higher heights. The gnawing ceased.  
The rat could not survive the higher  
altitude.

We need to seek higher concep-  
tions of God and have deeper con-  
victions of His love and laws and in  
that we shall have a new foothold.

The Israelites when bitten by the  
serpents were bidden "look up." The  
text affirms "He lifted me up out of  
a horrible pit and set my feet upon  
a rock."

Amid the shifting scenes of life  
can we say we have an anchor  
grounded firm and deep in the Sa-  
viour's love. Men can stand upon  
that experience.

The Psalmist further asserts "He  
hath established my goings. The  
root cause of many a failure in life  
is divided personality: Concentration  
in sin has brought success. Paul  
said "This one thing I do." Many  
things tend to distract, but if we  
keep our eyes forward we shall make  
progress. The movement may be  
slow but we are sure of our direc-  
tions. We have before us certain  
goals, achievements. We cannot  
shift from one to the opposite. We  
shall be unstable. Have we fixed  
convictions as to the worthlessness  
of truth, honor, purity and love in  
our own hearts and in the life of  
society. They must be in any life  
and society that is worthy of God  
and fulfills His thoughts.

It is not a case of the popular  
"ditt" with us. "We don't know  
where we are going but we are on  
our way." We do know where we wish  
to arrive through the stabilizing in-  
fluence of God. We are integrating  
our lives around God and His Love,

and our groups are established.  
He hath put a new song in my  
mouth, even praise unto God. Men  
change their dirge of defeat to a  
song of victory. They praise God  
for his love expressed in creation,  
providence and redemptions.  
Many shall hear the song and see  
the change wrought. Song is con-  
scious. Others are influenced to  
trust in God.

Can we with glad hearts a new  
song, confess with the Psalmist  
that we are the recipients of God's  
grace. We have experienced uplift,  
being freed from an horrible bondage  
that high aim and noble purpose  
passes us and that we have a new  
song in our hearts.

If you need this experience God  
is willing. The only barrier is our  
will.

"Our wills are ours we know not how  
Our wills are ours to make them  
thine."

## Regular Meeting Town Council Wainwright

(Continued from Front Page)

We have now completed all work  
for improving the Cemetery for the  
present season. The building, located  
in the Cemetery, has been placed  
on a cement foundation and the in-  
side plaster has been fully repaired  
and the roof and chimney has been  
put in good shape. The total cost  
of the improvements and repairs  
is \$142.15 of which amount \$79.15  
is payable in cash.

We have also received great as-  
sistance from the Municipal District  
of Gilt Edge in cleaning up and  
beautifying the grounds. The drive  
ways have been cleared of grass  
and weeds and gravel placed in  
many of the low spots. Considerable  
brush has been cleared from the  
vicinity of the building and we feel  
that the appearance of the Ceme-  
tery has been vastly improved.

We desire to express the appre-  
ciation of this Committee for the  
co-operation of the Council for  
the assistance of these rate-  
payers who aided in this work.

All of which is respectfully sub-  
mitted.

On motion, the report of the Com-  
mittee on Parks and Cemetery was  
accepted and incorporated in the  
accepted and incorporated in the  
proceedings of the meeting.  
On motion, Councilors Councillor,  
Link and McLeod were so attested  
committee to consider and report to  
Council on the feasibility of the  
Town of Wainwright distributing  
gas within the Town of Wainwright  
as a public utility after the expiry  
of the present franchise.

On motion, Council was regularly  
adjourned.

WORLD HAPPENINGS  
BRIEFLY TOLD

Raymond Poincaré, former premier of France, who "sawed the frame" in 1923, recently observed his 74th birthday.

The price of flour in London was reduced one shilling per bag of 280 pounds. The new price is 21 shillings and sixpence including the four shillings provided by the Wheat Quota Act.

Premier Mitchell F. Hepburn, of Ontario, declared his government would welcome introduction of unemployment insurance by the Dominion administration.

Ten United States army bombing planes, comprising the Alaska flight squadron, landed at Bolling field, Washington, recently, completing their 10,000 mile round trip to the north.

Kidnapping, not murder, is the most heinous crime of this age, R. E. Sackwell, editor of the Toronto Star-Night, declared in a recent address.

The discovery of a vegetable fluid which may supersede the use of blood for purposes of transfusions was made known to the delegates at the 26th annual convention of the Vegetable Growers' Association of America at Toronto.

Premier Benito Mussolini is not necessarily unfavorable to restoration of a monarchy in Austria or even over a combined Austria-Hungary, he told Archbishop Otto von Hapsburg in a secret interview recently in Italy.

"We shall not only accept a recommendation of a 40-hour week as the means for relieving unemployment, but we are firmly opposed to such a system," was the conclusion of an inquiry by the League of Women Traders, in a report on the question.

Amy Johnson Molison will be the first woman pilot on the regular cross-channel service. She accepted a post as commercial pilot with Imperial Airways, explaining she wants the maximum practice before she enters the London-to-Australia air races with her husband next October.

Prospecting for diamonds will be undertaken for the first time in British Columbia's history by Thomas W. Hindmarsh and George Ogden, both of Vancouver, who have secured two 10-acre pieces on the Nechako river, sought by the two men for this purpose, were approved by the provincial cabinet.

## Wheat Exports

Total Exports For Past Twelve Months Show Falling Off

Wheat sent to the United Kingdom in July totaled 8,214,546 bushels of the value of \$6,579,382 compared with 10,372,234 at \$7,861,321 a year ago, the bureau of statistics announced. The total export of wheat to all countries during the past 12 months was 70,000,000 bushels less than in the previous 12 months and to the United Kingdom about 42,000,000 less.

July export of wheat flour to the United Kingdom was 264,995 barrels, valued at \$935,326, compared with 235,044 valued at \$824,972 a year ago. The export to the United Kingdom in the past 12 months was 2,718,114 barrels, valued at \$9,331,968, compared with 2,379,663, valued at \$7,639,060 in the previous 12 months. The export to the United Kingdom is about half of the total export to all countries.

## Must Be A Habit

Magistrates Free Man Because Change Carried In Left Pocket

In which trouser pocket does a man carry his change? The question arose in a recent case in a Rhyl, Wales, court. A man accused of stealing a shaving brush from a drug store said he placed it in his right hand while he put his left hand in his pocket for the money. The drugist then showed him a dearer brush, which he bought. Near home he found he still had the cheaper brush in his right hand and before he could return it the police came. After his testimony the magistrates placed their hands in their trouser pockets, and they freed the man.

A new radio typewriter has transmitted a weather map with tabulated weather data in 7½ minutes, as compared with about 15 minutes required by the wire machines now in service.

Milkman—"If you won't pay for your milk, you might at least give back the empty bottles."  
Woman—"What do you allow for empty bottles?"

W. N. U. 2061

## A Viking's End

C.P.R. Steamship On Pacific Coast To Be Broken Up

An old queen of the coast-steamers of British Columbia, with the memories of many mariners upon her decks, had been given a viking's and recently.

The Canadian Pacific Steamships S.S. Princess Royal, already stripped of the fittings that made her a passenger liner, was given a bath of oil and the torch put to her. She was to a fitting finish as she lay broadside to the beach between Esquimaux lagoon and Albert Head. What is left of her will be broken into scrap and shipped to Japan.

The Princess Royal was built at Esquimaux in 1907, registered 881 tons, and was 228 feet long.

## The Canadian Grain Act

Wheat Graded To The Best Marketing Advantage

Among the eight bills affecting agriculture which became law during the 1934 session of the Dominion parliament was an act to amend the Canada Grain Act. The changes in this act place the statutory grades of No. 2 Manitoba Northern wheat on the same basis as No. 1 Northern Hard and No. 1 Manitoba Northern wheat so far as milling quality is concerned, and also empowers the Western Standard Committee to deal with the different varieties of grain which may be developed from time to time, so that they may be graded to the best marketing advantage without interfering with the quality of the main Canadian standard grades.

Many of the poison gases used in the late war have been tested to discover if they might be used in the warfare against insects. One of these, chlorophenol, is the most promising. Only a few of the most important insecticides have been mentioned. Science is continually developing new destructive agents and more efficient ways of applying them in this everlasting struggle of mankind against insects and fungi.

Crows Force Disaster  
That crops have a foreboding of disaster was shown recently in Ogmore Vale, Wales. For 90 years crows have built their nests in the branches of a lofty oak 200 years old. Without warning they all moved to another tree. A week later their home tottered in a breeze and fell. After the crash the crows cawed triumphantly.

It takes a wise man to give a woman advice without incurring her enmity.

Winnipeg Newspaper Union  
Favor

JAUNTY SMARTNESS AND SLIMNESS, TOO

In coat type dress so smart for now and early fall days. This day's smart pattern shows a new youthful version of the coat dress in slim, straight wrap-around style. A woman rather heavily built could also wear this model. It is a rosewood-brown novelty rayon crepe that looks like woolen. The attractively shaped collar and cuffs are white bengaline silk. They can be just buttoned to the dress, so as to be easily removed for cleaning, etc. Black crepe satin would be stunning for this model with effective white satin trim.

Black crepe, heavy pebbled crepe, metal threaded novelties in woolen, gay angora wools, etc., are other lovely materials.

Style No. 542 is designed for sizes 16, 18 years, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 3½ yards of 39-inch material with 1½ yards of 39-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap copy carefully.

## Little Journeys In Science

INSECTICIDES

(By Gordon H. Guest, M.A.)

Insecticides are classified into poison sprays, or stomach poisons, and contact poisons. The former cause death when taken internally, while the latter bring about destruction of life by mere contact. Pyrethrum belongs to the contact class of insecticides. Arsenic compounds are usually found in poison sprays. Finely divided lead arsenate suspended in water is used extensively and is very effective. Calcium arsenate is much cheaper and more abundant than lead arsenate. It is used to wage war against the bollworm, which is very destructive to the cotton plant. It is also used to destroy the potato beetle. Aeroplanes are employed to drop the calcium arsenate in the form of a fine dust upon the cotton plant.

Oil emulsions, produced by the addition of fish-oil soap to oil, are used to a considerable extent. Nicotine, a complex compound found in tobacco, is rapid and effective in the destruction of insects. Lime-sulphur spray is used against scale insects. This is prepared in concentrated form by boiling together water, sulphur, and slaked lime. Prussic acid is used as a fumigant in greenhouses and on nursery stock. It is an extremely poisonous substance.

Many of the poison gases used in the late war have been tested to discover if they might be used in the warfare against insects. One of these, chlorophenol, is the most promising. Only a few of the most important insecticides have been mentioned. Science is continually developing new destructive agents and more efficient ways of applying them in this everlasting struggle of mankind against insects and fungi.

Crows Force Disaster  
That crops have a foreboding of disaster was shown recently in Ogmore Vale, Wales. For 90 years crows have built their nests in the branches of a lofty oak 200 years old. Without warning they all moved to another tree. A week later their home tottered in a breeze and fell. After the crash the crows cawed triumphantly.

## "JACK MINER AND RELIGION"

By REV. W. E. MCILLOP, D.D.

Jack Miner, the Canadian naturalist, lecturer and author, was recently asked what was his religious belief. The third lover paused for a moment and then quietly replied very emphatically:

"I believe in any religion that is for the betterment and uplift of humanity. I belong to the Methodist Church which is now part of the United Church. I suppose the principal reason for this is, when I was 24 years of age, I was married; my wife belonging to that church. As I belonged to no church then, I felt it my duty to go with her. I firmly believe there would be more happy lives and happy homes if husband and wives attended the same religious services, whether it be Roman Catholic or Protestant. Well, you say you believe in any

Jack Miner about to liberate a tagged Canada Goose to study their route of migration. One side of the tag has Jack Miner's Post Office address, while on the opposite side of the tag is a verse of scripture, which the miner says in spreading the Gospel to the Indians and Eskimos of the far north.

religions that are uplifting and for the betterment of humanity, and yet you belong to the United Church." "I believe," replied Jack Miner, "every man should belong to some church which gives him one central place of worship and which will cause him to take a more active part in Christianity than he would if he drifted from one church to another."

"When you have been away from home every Sunday, I have seen you making your way to various services in different churches, from early Roman Catholic mass to the Jewish Synagogue. Why do you drift around like this?" asked the reporter.

"Well," said Jack Miner, "it's an education and keeps a man from becoming too narrow-minded and broadens his spiritual side of life. I always make it a point to try to be home with my family for Sunday

## Living In Poverty

But Paul Polart, Famous Dress Designer, Expects To Stage Comeback Still living in his penthouse apartment in Paris, but dependent for food and clothing upon charity and a 10-cent daily unemployment dole, Paul Polart is dreaming of a comeback in the dressmaking realm he once ruled.

"I spend most of my time with scissors and cloth," said the former king of Paris dressmakers, as he told of his misfortune. "I cut out dresses. Sometime someone will buy one and I will start on the road back to success."

"I haven't given up," he declared firmly, although he has been out of work for six months. "I am still in line with thousands of others to get his card punched and receive his dole."

He does not know how much longer he will be able to keep the penthouse apartment, now remaining sign of his former wealth. He has been told by one of the aristocrats of the world.

## No Camping In Church

St. Paul's Cathedral Pews Ban On Picnics In Pews

Persons wishing to look on pews in future, have to go for camping spots other than the pews of St. Paul's Cathedral, according to an edict issued by church authorities.

"We have in the past been turning a blind eye to many abuses," a cathedral reverend declared. "The other day I found a man in a pew reading a newspaper and smoking a pipe, and when I remonstrated at such action in a house of worship he replied that he had only come in to get out of the rain."

By action of the chapter, however, use of the cathedral for anything but devotions will be prohibited in the future.

## May Erect Giant Tower

A giant tower, 6,000 feet high, six times as high as Eiffel Tower, has been proposed as a means of defending Great Britain, against aerial attacks. It would be built of reinforced concrete. Platforms would be provided at various elevations for the launching of aeroplanes and as bases for anti-aircraft artillery.

It's easier for a woman to hold a strong man than her own tongue.

## SUNDAY SCHOOL LESSON

SEPTEMBER 2

Golden Text: "He hath showed thee O man, what is good; and what doth the Lord require of thee, but to do justly, and to love kindness, and to walk humbly with thy God?" Micah 6:8.

Lesson: Micah, chapters 2-4 and 6:1-7.

Devotional reading: James 1:22-27.

Explanations And Comments

A Dramatic Scene: God Presents His Indictment of the Faithless People, verses 1-5. The prophet Micah, in a burst of oratorical passion, declares that God will contend, or plead (the figure is that of a complainant in court), with the people before the mountains, as judges. "Hear, O ye mountains, and ye enduring foundations of the earth," the prophet cries; "for Jehovah hath a controversy with his people, and he will contend with Israel." The mountains are spoken of as "enduring," for they have outlived many generations of peoples.

For the only answer, Micah says, is the plaintiff; the prophet is his attorney; Israel is the defendant; the mountains are the judges. "O ye people," Jehovah exclaims through his attorney, "what have I done unto thee? and where have I wearied thee? testify against me"—show cause for your disobedience. No answer comes, for the twelve apostles, that could be made is that the fault lies in the people, not in Jehovah.

The Divine Condemnation of True Religion, verses 6-7. To all of this, verses 6 and 7, Micah replies with what is the great saying in the Old Testament which combines the characteristic messages of Amos, Hosea, and Isaiah. The keynote of Amos' teaching is the judgment, "O ye people," Jehovah exclaims through his attorney, "what have I done unto thee? and where have I wearied thee? testify against me"—show cause for your disobedience. No answer comes, for the twelve apostles, that could be made is that the fault lies in the people, not in Jehovah.

## Recipes For This Week

(By Betty Barclay)

## ORANGE NUT BISCUITS

(Makes 18 medium sized biscuits)

2 cups sifted flour  
4 teaspoon baking powder  
1 teaspoon salt  
¼ cup sugar  
¼ cup shortening  
½ cup finely chopped nuts

1 egg  
Orange juice

1 tablespoon orange marmalade.

Sift dry ingredients together. Cut in shortening. Add nuts. Beat egg; pour into measuring cup; add enough orange juice to make ¼ cup. Combine with dry ingredients and add marmalade; knead a few seconds on slightly floured board. Cut and bake in hot oven (425 degrees F.) for 10 to 15 minutes.

Note: A little more orange juice will be needed with some flours to make the dough soft.

## CARROTS AND PEAS

2 cups cubed carrots  
1 cup cooked peas  
3 tablespoons butter  
3 tablespoons flour  
½ teaspoon salt  
½ teaspoon pepper  
2 teaspoons sugar

Boil the carrots until tender. Combine with the cooked peas, reheat and serve with melted butter or make a sauce of the flour, butter, milk and seasonings, add the cooked carrots and peas, reheat and serve hot.

## Folks Are Generous

Detective Dressed As Mendicant Collects \$40 In Six Days

A Scotland Yard detective disguised himself as an ex-salvage selling matches, when he was in search of a "wanted" man. In this disguise he stood in the prominent London sidewalk for six days and eventually secured his man. He also received nearly \$40 from kind-hearted passers-by. Most of the contributors merely passed him a copper or two without uttering a word to him.

The Authorities of Scotland Yard have ordered the money to be paid into police funds.

Glase domes have been installed on British anti-aircrafts to protect machine gunners from wind and increase the accuracy of their firing.

## Agricultural Notes

Interesting Items Gleaned From Many Sources

Canada exported 37 live cattle to Hong Kong, China, for drying purposes during the first three months of 1934.

Hogs graded in Canada during the 32-weeks of 1934 up to August 9, totaled 1,883,717, as against 1,968,681 in the corresponding period of 1933.

The general effect of the customs changes in the Fiji Islands is to increase the margin of preference to imports from Canada and other Empire countries.

There has been more tomato puree, tomato sauce and ketchup, and tomato soup imported into the British Isles from Canada than from any other country during the first six months of 1934.

Reports from Moscow show that there has been considerable difficulty in the Russian production of harvesting machinery, particularly harvester combines. This has had an effect on harvesting arrangements.

The total stocks of Canadian wheat in Canada on July 31, 1934, were 193,322,863 bushels—18,417,325 bushels less than the total on the corresponding date in 1933, but 61,478,057 bushels more than on July 31, 1932.

Shipments of livestock from Western to Eastern Canada for the 31 weeks of this year, up to August 2, (1933 figures within brackets) included 48,575 (33,042) cattle; 484 (145) calves; 140,015 (190,570) hogs; 48,416 (53,000) sheep; 1,131 (1,131) goats.

During the first six months of 1934, Canada exported to the London (England) market the following canned fruits: 71,722 cases of pears; 14,385 cases of loganberries; 2,882 cases of peaches, and 40,964 cases of canned apples.

A trial shipment of Ontario apples in hampers made in 1933 to Egypt has been well received. It consisted of Genes, Baldwin, and Ben Davis, mentioned in order of preference. The Genes in particular, says the Canadian Trade Commissioner in Egypt, should be able to find an outlet in Egypt so as to meet the demand for red apples.

The meat from which soup has been made becomes rather tasteless, but it still contains most of its nourishment. Therefore, it may be used in soups, meat pies and ragouts, where the flavour of vegetables and seasoning compensates for the lack of meat flavour.—Beef, How to Choose and Cook It, Dominion Department of Agriculture Bulletin.

The Japanese wheat crop of this year is estimated at 44,000,000 bushels. It is considered that the annual consumption of wheat is about 45,000,000 bushels, so that the five-year plan instituted two years ago by the Japanese government to grow sufficient wheat for domestic purposes would be able to meet the demand in the second year of the attempt.

Latest estimates of wool production for the five principal exporting countries (Australia, New Zealand, South Africa, Argentina, and Uruguay) for the 1932-33 season which should be able to find an outlet in America point to a net decrease, greasy basis, of nearly 200 million pounds, or 9 per cent, in comparison with the 1932-33 season.

## Open Cans With Claws

Glacier Park Bears Enjoy Everything But Spinach

Glacier Park bears eat anything that comes in cans—anything except spinach—according to Dr. George R. Ruhle, chief naturalist. "I have found a ranger's cabin that had been broken into. Every can had been opened."

"The bears had eaten everything," he said, "except the spinach."

"To apocryphal who doubted the bears' ability to open tin cans, Ruhle explained:

"They just ram a claw through the tin and draw it around the edge—as slick a job as any opener will do."

Methods of prevention of dry rot of corn in the foothills region of the North Caucasus are being studied by Russian scientists, because of the discovery of the disease after the American variety Ivory King had been introduced to the Caucasus in 1929.

Office Boy—"I ain't feeling so good; kin I have the afternoon off?"

Boss—"Why don't you tell me your grandmother is dead?"

Office Boy—"I'm saving her for later in the season."

A European manufacturer is making paper from the refuse ends of asparagus.

### Here's a PAINTING BOOK FREE for the asking!

And a chance to WIN one of the many fine prizes!

You are just going to love the Painting Book prepared for you by the makers of Keen's Mustard... pages of dandy pictures that you can color with your own paints or crayons.

Tell Mother you are going to the store to get KEEN'S GIFT BOOK!

Get your copy right away, for your dealer has only a limited number for free distribution, and we don't want YOU to miss out on this gift. You, too, will say "It's as Keen as Mustard!"

And maybe you will win a fine prize—in money, a bicycle, radio, skates or a piggy bank, baseball, bats or dolls or dolls' cottage, etc. Wouldn't that be grand?

Remember, you don't have to buy anything to get this book. When you tell Mother you will probably want to buy a tin of KEEN'S MUSTARD back with you. So get your gift book today. Start painting and show folks what a swell artist you are.

If you cannot get the Book from your dealer, write to the makers of Keen's Mustard, care of Keen's Mustard, Ltd., 1000 Avenue A, Montreal.

## KEEN'S

### D.S.F. Mustard

## OCCASIONAL WIFE

By EDNA ROBB WEBSTER

Author of "Joretta," "Lipstick Love," "Kitty" Etc.

### SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money until she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, when the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. After Camilla's announcement, Peter refuses to accept any of her earnings to help him along, but Peter refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of \$1,000. Peter finishes his exhibit and asks Avis and Camilla for suggestions as to a name for it. Camilla suggests "Eager Youth," and Avis "Inspiration." Peter adopts the latter title, and Camilla, heartily, goes to Peter's studio for quiet and to think. Peter and Avis follow later, and as the lights are turned on, she finds Peter has been shattered to pieces. Avis accuses Camilla of doing this, and Camilla, stunned by the accusation, is hurt and horrified by the accusation.

At Camilla's suggestion, Peter enters as his exhibit a statue he had sculptured especially for her as a wedding gift. They named it "Land of Hope." Camilla's advertising campaign and tiny tote broadcast a great success, and Mr. Hoyt expressed his pleasure and surprise on learning that Camilla was the artist and an artist who was so ably stimulating business for his company. Peter's exhibit was awarded the Paris scholarship, and he prepares for his journey to France. After the ship's departure from New York, he is on his way to his cabin when he meets Avis Werth.

(Now Go On With The Story)

### CHAPTER XVIII

It was in such a mood, when Peter had been exceptionally gentle and solicitous during the evening, that Avis ventured upon a long-drooped subject while they smoked and talked in a secluded corner of the deck together. He had not mentioned Camilla's name in her presence that day, and she risked the remark:

## "Blue" Spells

Reduce some women to the penitent shadow of their own smiling selves. Others, like the Vegetable Compound when they feel the "blues" coming on, it means a quick, invigorating nerve, helps to tone up the general health, gives them more pep, more charm.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

W. N. U. 2061

are in love with some man who doesn't reciprocate?

She nodded silently her head resting against the back of the chair and her half-closed eyes watching him covertly.

"I'd say he was all kinds of a sap not to wake up and find himself," Peter declared, forcefully, then sighed deeply. "Good, this love business is a wild, untamed thing, anyway. Why do people select their life partners by impulse and emotion instead of by practical reasoning as we venture into any other kind of business?"

"Because there is no getting away from love, I guess," pensively.

"Well, what is it, then? How do we recognize it when we do find it? Why isn't it complete for us?"

"Why, Peter, you talk as if you never had been in love!"

"Because you would know the answers to all those questions."

Silence. Then "Well, I don't." He could not escape from that strangling sensation which Avis' revelation about Camilla had given him. The thought that she, his previous Camilla, would so betray and humiliate him at the very climax of his ambitious efforts tortured him like the closing of a garrote around his neck. He might have doubted, her guilt, had Avis not told him so simply and as if unaware that she was betraying him at the very climax of his ambitious efforts tortured him like the closing of a garrote around his neck. He might have doubted, her guilt, had Avis not told him so simply and as if unaware that she was betraying him at the very climax of his ambitious efforts tortured him like the closing of a garrote around his neck. He might have doubted, her guilt, had Avis not told him so simply and as if unaware that she was betraying him at the very climax of his ambitious efforts tortured him like the closing of a garrote around his neck.

He brooded in silence for awhile, until Avis did not intrude. Finally, he arose impatiently at the murmur of sitting quietly was no longer to be endured. "Should you like to go in?" he asked tensely. "I'm not much of a companion this evening. This thing has got me—about Camilla. I hope you understand that I'm not—"

"Of course," she interrupted kindly. "I'm only so sorry that I mentioned it, Peter."

"I'm glad—might glad to know it," he contradicted. "More the pity, I hate to decide. It helps a lot to know just how things stand."

"Well, don't you do anything rash—like jumping overboard."

"Not on your life. I think I have discovered one more thing tonight—that love isn't worth all the suffering we take with it."

"Oh, Peter, dear don't be cynical," Avis pleaded.

"I'm not. Only being sensible."

She laughed softly. "You are much too romantic to renounce love. Get a hold of yourself, please. Good night, Peter."

He smiled down at her with a new tenderness. "Good night, little Paul."

She carried away with her the light in his eyes, hugging it to her heart; remembered the vehemence of his remembrance of love. That would do for a beginning, she exulted. If she could take him along that far toward her goal within four days, what might she not accomplish in a year? By that time, she could make him wonder what he ever saw that was attractive about Camilla. She would make herself indispensable to his life.

Camilla resolutely followed the routine of her days and thanked the benevolence of blessed, fatiguing, mind-occupying work. If two days could be so interminable and wretched as this, how was she going to endure the year ahead of her? She tried to convince herself that as time passed, she would become accustomed to Peter's absence and would be able to do without him. But she did not want time and absence to dull her need of Peter. If so, what then? She would have nothing left. Nothing for which to live and hope and work. Life then would be just a monotonous existence, without aim or reason or pleasure.

And what if Peter, immersed in his work, involved in his new life, discovered that his longing for her was dulled? Protest built with broken wings within her breast.

Resolutely, she put her thoughts aside and summoned her will to concentrate upon the fictional lives of her characters. She was working at the office, but nowhere could she prevent her thoughts of Peter entering.

Her secretary announced a gentleman to see her. "He said it was urgent, but would not give his name," Miss Scott explained.

Camilla frowned with annoyance. "Probably another high-class beggar who got in with his air of importance. This radio publicity makes me a good target for such people. I'll see him for a minute."

(To Be Continued)

As long ago as 1868, Westminster, England, tried out a red and green traffic signal in the form of a gas lamp and used only at night.

## Eloquent Plea Of Indian

Magistrate Dismisses Case Of Breach Of Game Laws

"Canada is our country; God gave us mouths to eat and put game in the country for us to live on. It is the only way we have of getting a living. You white men have an education and a job to live by, but we have no other way," John O'Case, Chippewa Indian chief, explained to Magistrate R. E. Thurber at Edson, Alta., when charged with illegal possession of big game carcasses. The magistrate dismissed the case.

Evidence disclosed that in July a party of 40 Chippewa Indians moved from the Rocky Mountain House district to Marlboro and began to kill moose and deer. Alarmed lest game should be exterminated through a general slaughter, citizens complained.

The magistrate, in announcing his decision, said that unless he had instructions from the attorney-general's department he could not see his way clear to convict the full-blooded, non-treaty Indians who do not live on reserves, as long as they were not making a wholesale slaughter.

He took the stand that the Indians knew of no other way of making a living and unless the government was prepared to look after them, he was not prepared to register a conviction.

A sister of the accused chief, who asked if she could address the court after evidence was taken, and who received permission to do so, described eloquently the experiences of her tribe and how loyal they had been to the white people in times of trouble. She claimed on one occasion when the Prince of Wales was visiting in their district his Royal Highness had told them that they could hunt for a living. Her address lasted 45 minutes, during which she made a stirring plea for her brother, pointing out that they had a mother 105 years old to take care of.

On dismissing the case, the magistrate warned the chief that he must endeavor to obey the laws of the land as far as possible. Chief O'Case agreed readily and shook hands with the magistrate.

## Proud Of Its Record

Tree In Nova Scotia 170 Years Old Still Bearing Apples

George F. W. Whitehead, of Nova Scotia, the oldest apple-bearing tree in the Annapolis valley. It is 170 years old and in its life-time has produced 600 barrels of excellent fruit.

The seed for the leafy giant came up with the Whitman family from New England in 1762. It was planted by Mr. Whitman's great-grandmother. Long years ago the seedling tree was grafted with the Nonpareil variety.

Sometimes it produced 12 barrels of marketable apples and while orchardists of Canada's great orchard country were bemoaning the fact that the last severe winter affected many of their trees, Mr. Whitman's "old faithful" blossomed forth lovelier than ever.

## Paris Has Good Zoo

Paris boasts that its new zoo, which was opened by the President of France, is one of the largest and most complete in the world. It covers 30 acres in the heart of the Bois de Vincennes, on part of the site of the Colonial Exhibition of 1931. It is larger than the London, Amsterdam or Antwerp zoos and contains 2,000 animals, including specimens from every part of the globe.

Niece (in the picture gallery): "Aunt Sarah, this is the famous 'Angulus,' by Millet."

Aunt Sarah: "Well, I never! That man had the nerve to copy the calendar that has hung in our kitchen for a dozen years or more."

People who own canoes should put a "No Tipping" sign on them.

## Ancient Doll Goes Modern

Prized Possession Of Ontario Child Is 134 Years Old

Prized possession of a little Kitchener, Ontario, girl is a wooden doll said to be 134 years old, handed down by her great-great-grandmother, in Germany from generation to generation.

Brought to Canada in a wooden chest whose date of manufacture was indicated as 1800, the doll is believed to have been made the same year. The body is wood, with hinges fastened with screw nails for joints. The head, made of a substance resembling plaster of paris, is solid and fastened to the body with screws.

Mute witness to the triumphs of Napoleon's hosts, to the rise and fall of monarchs and empires, the doll by no means preserves the fashions of the dying years of the 18th century. Until the present owner obtained the doll from her mother, who in turn received it from her mother, "Franklin Greichen" wore a crested gown, made with a bustle and an old-fashioned bonnet to match. Now, however, she flaunts the acme of twentieth century modernness.

## THE RHYMING OPTIMIST

By Aline Michaelis

### TWO BIRDS

Two birds, flying wing to wing High above the plain, Sail through sunset's blossoming Into night's domain.

Vast, pursuing shadows rise From earth's darkening face: Swiftly, through the falling skies Into dusk's embrace, Two birds, heedless of the voice Of the wind of night, Flying wing to wing rejoice In their silent flight.

Though they lose the sun's last spark And no comrades sing, Unafraid, they face the dark, Two birds, wing to wing.

### Inventor Of Photography

Process Of Henry Fox Talbot Dates From 1833

Among inventors who have revolutionized life, Henry Fox Talbot of Lacock, England, is less well remembered than he should be, although, by means of patents, he took peculiar pains to establish the priority of his inventions over those of Daguerre. His centenary thus has particular interest. His earliest record dates from 1835, but he did not learn to "develop" until 1840. Progress continued to be slow and it is uncommon to come across photographs of more than experimental interest until Roger Fenton took a camera out to the Crimea in 1855.

The apricot is supposed to be a native of China and was brought into Europe at the time of Alexander the Great.

## Little Helps For This Week

"Study to show thyself approved unto God, a workman that needeth not to be ashamed." 2 Timothy 2:15.

"And let us not be weary in well-doing; for in due season we shall reap if we faint not." Galatians 6:9.

The task Thy wisdom has assigned, Oh, let me cheerfully fulfill; In all my works Thy presence find, And prove Thine acceptable will.

C. Wesley.

What is my next duty? What is the thing that lies nearest to me? That belongs to your every-day history. No one can answer that question but yourself. Your next duty is to determine just what your next duty is. There may be something you neglect, or something you know you ought to do. You would know your duty if you thought in earnest about it and were not ambitious of great things. If it is something commonplace that will make life dreary it will soon lead you to something more. Your duty will commence to comfort you at once, and will at length open the unknown fountain of life in your heart.—G. MacDonald.

### Large Radio Order

An order from South America stated to be worth \$1,500,000 and believed to be the biggest order for radio equipment ever received in the United Kingdom, was booked by one firm at the opening of the great annual wireless exhibition at Olympia.

Robber crabs, natives of Christmas Island, in the Indian ocean, climb coco-palm trees and break off the coconuts. They hammer in the ends of the shells with their strong claws.

## Wainwright Local News

Miss Grace Welch, who has been  
spending her vacation with her  
parents is leaving this week for  
Thorhill, Alberta, where she has  
been teaching the past two years.  
This town which is 45 miles north  
of Edmonton, is growing rapidly.  
Last year a large hotel and com-  
munity hall was built there. This  
summer a new High School has been  
built, which Miss Welch will have  
charge of as principal.

The derrick on the Santee farm  
at Fabyan is being moved to the  
Old Interior well near Wainwright.  
This well which was one of the  
heaviest producers in the field, will  
be brought back into production if  
possible. Production Manager,  
Thompson, of the Gold Standard  
Oils has this work in hand.

Mr. H. A. Bates, of the C.N.R.  
offices, Saskatoon, and Mrs. Bates,  
are visitors this week at the home  
of Mr. Bates' uncle, Mr. A. J.  
Martin, City View Farm.

Mr. McInnis has been confined to  
the house for a few days, suffering  
from Sciatica.

Mr. E. W. Beasley's threshing  
machine started last week on the  
farm of his son, Charles. 1500  
bushels of No. 2 Garnett wheat was  
threshed from 90 acres.

Peter Keller's machine was run-  
ning at Fabyan and Edwin Pearson  
was threshing on the Torgerson  
farm near Baxter Lake.

Mr. and Mrs. Yeager left by Tues-  
day night's train for their home at  
Hamilton, Ontario, after spending  
an extended holiday with Mr. and  
Mrs. Jack Telford.

Hold the date open, September  
18th, for the dance to be given  
under the auspices of the Culling  
Club.

Charlie Wittman was home over  
the weekend.

Mr. and Mrs. Thoreson and  
Doreen, returned on Saturday, to  
take up teaching duties again.

The Gymnasium starts again for  
everybody in the first week of  
September. Boys and Girls, get  
your gym suit ready and we will  
have some new fun. Come on, every-  
body, young and old, but don't forget  
the children.

Mr. Angus McQuaker is repairing  
the Battle Heights School at Fab-  
yan. A new floor is being laid, the  
walls insulated, the interior painted  
and other extensive repairs are  
underway.

Eileen Murray, of Greenfields,  
spent a few days visiting at the  
home of Mr. and Mrs. W. H. Lyle.

The Atlas Lumber Company have  
unloaded five cars of lumber this  
month and have their large sheds  
now filled to capacity to take care  
of their fall business, which they  
estimate will increase 25 per cent  
over last year.

W. J. O'Callaghan and family  
visited friends at Stettler over the  
weekend, the family remaining there  
for a week.

Harvey Ward and bride returned  
to Wainwright on Saturday.  
Dr. an Mrs. Courcier motored to  
Edmonton Saturday, where Mrs.  
Courcier will visit her parents for  
a week.

Miss Mildred Perkins, of Lloyd-  
minster Hospital Staff, is a visitor  
at the home of her parents, Mr.  
and Mrs. Fred Perkins.

Mrs. Snyder and family moved  
up from Clear Lake last Wednes-  
day and will remain here for a  
week. Frost was quite general on both nights,  
on Thursday night some places report-  
ed a decided change and since the  
weather has been warm and hot.

Mrs. Bert Laird left last Wednes-  
day for Nokomis, Sask., to visit  
with her parents and relatives for  
a month. We are sorry to report  
that her father died on Tuesday  
morning last.

Mr. E. G. Knight came own from  
Edmonton on Saturday to join his  
family and spend a week with them  
at the home of W. C. Bowen.

Rossie Callas was operated on for  
appendicitis at the Hospital on  
Saturday night. We are pleased to re-  
port that she is doing nicely.

Mar Saville brought in a load of  
new wheat to the local Flour Mill,  
on Tuesday. It was a good sample,  
grading No. 1. Yield was about  
12 bushels per acre.

The surveyors who have been  
working on the Highway this sum-  
mer, were ordered to work near  
Lethbridge and left here last week.  
They may return later.

Steve Dowerman's building an  
addition to his Oil Station this  
week. It will be used as an auto-  
mobile repair room.

Mr. Audrey Tory has the con-  
tract to build an office building on  
Main Street between the Hero Cafe  
and the Wainwright Hotel.

## Alberta Grain Growers

## Read this Message!

It is of vital importance that a strong co-  
operative elevator system should flourish in  
Alberta. It is desirable that such an elevator  
system should be under the control of Alberta  
grain growers—men who are actually following  
the occupation of farming.

The Alberta Pool Elevator system is the only  
organization in Alberta that meets these require-  
ments.

All country elevators of the Pool system are  
operated under public license and as such are in a  
position to handle the grain of any grower.

All Pool Elevators are on a sound financial  
basis; are efficiently managed and can give unex-  
celled service to the grain growers of this pro-  
vince. Alberta Pool agents are carefully selected  
and have strict instructions to give fair treatment,  
including proper weights and correct grades, to  
all patrons.

Alberta Pool Elevators operate on the co-  
operative principle of "Each for all and all for  
each"—a principle which will tend to bring a  
measure of economic and social justice, peace and  
prosperity throughout the world.

Alberta Pool Elevators
